

Top 3 clones per cluster (counts)

The graph illustrates the projected increase in the aging population across several countries. Japan and Germany start with the highest percentages in 1950 (around 18% and 17% respectively) and show the most dramatic increases, reaching nearly 30% by 2050. The United States and the United Kingdom also show significant growth, starting around 12% and 11% in 1950 and reaching about 20% by 2050. France and Italy start around 10% and 9% in 1950 and reach about 18% by 2050. The Soviet Union and China start with the lowest percentages (around 6% and 5% respectively) and show more moderate increases, reaching about 12% and 10% by 2050.

Country	1950 (%)	1960 (%)	1970 (%)	1980 (%)	1990 (%)	2000 (%)	2010 (%)	2020 (%)	2030 (%)	2040 (%)	2050 (%)
